There can be no assurance that future developments will be those that have been anticipated. These forward-looking statements involve a number of risks, uncertainties or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those discussed and identified in public filings made with the SEC by ROCR and the following:

 - the risks that the consummation of the proposed Business Combination is substantially delayed or does not occur.
-

Should one or more of these risks or uncertainties materialize or should any of the assumptions made by the management of ROCR and QualTek prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements.
